MADRID

ARTFULLY CRAFTED NATURAL WOOD ELEMENTS

MODERN TREATMENTS + ACOUSTICAL PRODUCTS

MADRID

ABOUT US

Madrid has been crafting quality wood products since 1977 and architectural ceilings and wood elements for well over a decade.

We specialize in unique ceiling treatments and modern acoustical products. Our attractive and versatile product lines can complement your design and provide optional sound reflection or absorption if desired.

WOOD CEILING TILES

Madrid's wood ceiling tiles are manufactured with Class A fire-rated cores with particle board or medium density fiber board (MDF). Our tiles contain no urea, formaldehyde or VOCs. Choose from our standard perforation or channel patterns or request custom perforations.

Easy to install with multiple attachment methods, these tiles offer both aesthetic beauty and acoustic performance.

WOOD WEAVE

Offering a distinctive, real woven wood surface available in various veneer species, this solution adds elegance to any wall or ceiling application. These interlocking 8" x 8" or 12" x 12" tiles are easy to install and can be custom finished to fit your design vision.

Ideal for walls, millwork, and more, Wood Weave is an economical and stylish choice to bring your project together.
